

Living high above the rooftops of Basel

Excellent prospects for your next long stay in Basel: a distinctive 7½-room penthouse apartment extending over two floors. Located in an annex of the Mercure Hotel Europe, the apartment enjoys direct access via a lift and separate entrance.

The sleeping area on the fourth floor consists of five bedrooms and two bathrooms (bathtub/WC, shower/WC), plus a separate shower. The upper level on the top fifth floor is divided into a living and dining area. Two extensive, sunny terraces (overlooking the garden and street respectively) and a fully equipped kitchen with a dishwasher will ensure that your stay is a comfortable one. Also very practical are the washing machine with dryer and the wireless access to the Internet via WLAN. The apartment underwent a tactful renovation in February 2009 and has been refurbished. The minimum stay is one month.
